WORK EXPERIENCE

Software Developer

Zoho Corporation

12/2017 – Present

Achievements/Tasks

- Have been through all the phases of Software Development and have successfully released various features into the product.

Java Developer

Tata Consultancy Services

08/2016 – 12/2017

Achievements/Tasks

- Received 'On the Spot Award' for my valuable contribution to the organisation.

PROJECTS

Mortrac Rewrite - TCS (03/2017 – 10/2017)

- The web application is expected to replicate the behavior of the existing system(a Powerbuilder application used by the bank employees to manage and ease the process of Loan Origination for Mortgage Banking) and have additional functionality wherever desired. This application has been designed to interact with multiple departments (applications).
- Worked with a team of 6 members in creating REST web-services for the application.
- Closely worked on the JWT Authentication implementation and LDAP authorization for the complete application.
